

I'm Amro, Sudanese

This is my portfolio

<https://amro97-portfolio.vercel.app/en>

I made many projects in frontend covering all the things that it needs

I can make multiple things like

- **full sign in and sign up form with forgot password and verify email**
 - **sign in with google (next-auth)**
- **upload images files videos and multiple files using Firebase**
 - **upload images using Uploadthing**
 - **make dark mode**
 - **make multiple languages using next-intl library**

and I have 5-6 fullstack projects making me good in nextjs with mongoDB

and I have some experience in MERN stack

Also, I have portable monitor (second screen) which increases my productivity so much,

mouse and comfortable chair and I'm alone in my room
